

We are thrilled to be able to provide you with an opportunity to take a test ride in one of our saddles. We look forward to hearing your personal assessment of the comfort/performance results from your rider perspective... as well as that of your horse. The industry standard among saddle makers who offer test rides is for about a 10-20 minute ride.

We are a bit more liberal, and recommend an hour total, so that you can acquaint your horse with Savvy on line first, before climbing on board. The feeling of having so much room to move will be a new one for your horse, and he/she may experiment with being able to use his back and shoulders. We further ask that you acquaint your horse to the saddle with a Theraflex pad and shims (per suggested methodology to be found on our saddling DVD and shim/balance brochure).

Please return the saddle in the same condition as it was received, in order to avoid damage assessment and fees.

We expect the saddle to be returned by the agreed-upon date and time below, which should allow for weather challenges.

If you should choose to purchase a Parelli saddle, please fill out, sign and fax in the orderform to the Natural Horseman Saddles' office. (970-403-1374)

All financial arrangements must be completed before you may take possession of the saddle.

We thank you for understanding that we cannot allow you to ride a test saddle for long periods of time because of the potential wear and tear it puts on the saddle, and the number of customers who are waiting to try it as well.
